

I have been informed that the FCC has introduced a new broadcast service - LPFM which would take priority over current FM translator services. As I have been informed - many advocates of LPFM feel that there is little value in national/registered services such as K-LOVE. I disagree: 1. K-LOVE serves me as a resident of my local community by providing great christian music with no commercials and information about the my christian community at large. 2. If K-LOVE were to be replaced by a LPFM there wouldn't be another high level of listener support christian radio station as K-LOVE. 3. K-LOVE supports the public interest by promoting good moral values. Thank you.
